Aerosoul Art is a form of art that expands far beyond the boundaries of what is considered graffiti. It involves large polychromatic murals that take a great deal of technics and style. Style Which has being handed down and improved by many gerations of artists. its probably one of the purests forms of self- expression for it has not being influenced by outside forces like money. The purpose of the X2 PROJECT is to promote individualism, and originality . We present to you, a variety of artworks by artist from all around the planet. We do this in hopes that, you see what other artists are doing, learn from it, develop fresh ideas, and create new styles. Taking aerosoul art to new levels. This magazine is not for everyone, it is strickly art. If you want profanity, nudity, violence, or negativity, this is not the mag for you. We know that their is a lot female artists and other people who are offened by this type of material. Also, the X2 PROJECT is not here for those who are into aerosoul art because "its cool now" , or "people will like me better". We are here for all those real artist have respect for the old school pioneers, live for aerosoul art, and like taking chances to express themselves .

The X2 PROJECT does NOT encourage any criminal wrong doing. We do encourage people to make their own decisions based on facts not on outside influences like peer pressure, religion, society, greed, or sexuality.
